ABOUT THE CONFERENCE

The Cybersecurity Event for the Threats of Tomorrow

SHLD is the first CISO-driven cybersecurity platform dedicated to AI Security, OT Security, and Quantum Readiness. Bringing together security leaders, critical infrastructure operators, policymakers, and technology innovators, SHLD addresses the strategic cyber risks that will define the next decade.

Target Groups

- Chief Information Security Officers
- Cybersecurity & Information Security Leaders
- Critical Infrastructure Operators
- OT / Industrial Security Professionals

Highlights

- Strategic Keynotes & Panels
- CISO Roundtables
- Real World Case Studies
- Breakout Sessions & Workshops
- Networking & Executive Exchange

Why SHLD?

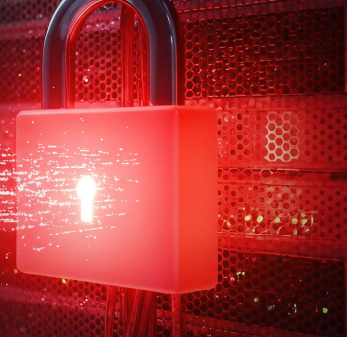

Focus on the Three Defining Cybersecurity Challenges

- AI Security
- OT Security & Critical Infrastructure Protection
- Quantum Readiness
